

Sex Offender Program

Policy

It is the policy of Mid-Ohio Psychological Services, Inc. to provide the highest quality, most cost effective Sex Offender Program available. Program services will include assessment, evaluations, individual, group, and case management services as dictated by certification standards and client need. These services are provided by qualified mental health practitioners (as defined by the Ohio Department of Mental Health code 5122-23-03) and supported by competent support staff, all of whom are sensitive to the needs of the consumer (including varied ethnic/cultural backgrounds, disabling condition, and social/physical environments that affect the person's functioning).

It is the responsibility of the Clinical Director, in direct consultation with the Executive Director and Administrative Coordinator, to oversee the delivery of this program. The Clinical Director is responsible for codifying the procedures for this program and for ensuring compliance by all staff with the established procedures, reporting any discrepancies to the appropriate staff personnel and the Executive Director.

It is the responsibility of all clinical staff and support staff to provide immediate feedback to the Clinical Director when any problems arise in the delivery of this program or when any areas for improvement are identified.

It is the responsibility of the Quality Assurance Committee to review the provision of services for this program through established procedures to ensure the thoroughness, appropriateness, and effectiveness of service delivery.
