Current Psychology Postdoctoral Trainee, Psychology Assistant: 2000 - 2004
Mid-Ohio Psychological Services, Inc
624 E. Main St.
Lancaster, OH 43130
(740) 687-0042
Primary Supervisor: Bradley A. Hedges, Ph.D., Psychologist
- Mid-Ohio Psychological Services, Inc. is a community mental health center providing comprehensive treatment services to children, adolescents, and adults experiencing a range of behavioral, emotional, and psychiatric disorders.
 - I provide treatment services consisting of individual and group psychotherapy with adolescents and adults. My areas of specialization include treatment for adult and adolescent sexual offenders, anger management, individuals experiencing mental retardation/developmental disabilities, individuals experiencing co-occurring mental health and substance abuse disorders, and individuals with co-occurring mental health disorders and criminal justice system problems.
 - Team Leader for Adult Team. Provide administrative supervision and consultation with team of therapists and case managers. Provide individual training supervision; work supervision; and mental health worker supervision. Conduct trainings for agency staff and internship program.

1999-2000 Sexual Offender Treatment Specialist

Park Center, Inc.
909 E. State Blvd.
Fort Wayne, IN 46805
(219) 481-2700

Primary Supervisor: Jerry Barton, MS, LCSW

- Park Center, Inc is a large, urban community mental health center providing outpatient mental health services to children, adolescents, and adults with diverse ethnic and socioeconomic backgrounds. Park Center also operates satellite offices in two surrounding rural counties.
- Outpatient treatment program for adult sexual offenders. Responsible for administration and development of treatment services for adult sexual offenders. This included developing and implementing treatment program in a group format. Provided treatment in both urban and rural locations. Served as liaison to community referral sources, including probation and parole offices.

Clinical Training Experience:

1998-1999 Full-time APA Approved Predoctoral Internship in Psychology

Park Center, Inc.
909 E. State Blvd.
Fort Wayne, IN 46805
(219) 481-2700

Primary Supervisor: Anthony Flores, Ph.D.

Additional Supervision: Don A. Marshall, MD., J. Rick Day, Ph.D., David L. Lynn, Psy.D.

- Supervised internship-training experience providing psychological services to children, adolescents, adults, and couples with a variety of presenting problems. Training experience also included conducting intakes, diagnosing, and formulating treatment plans.
- Specialization in Treatment of Adult Sexual Offenders. Responsible for administration of treatment program for adult sexual offenders. This included developing and implementing treatment services in a group format. Served as liaison to community referral sources, including probation and parole offices.
- Specialization in Addiction Services. This included conducting diagnostic assessments and facilitating addiction treatment groups. Treatment incorporated psychoeducational and process groups.
- Group therapy with sexual perpetrators, chemical dependency, individuals with a chronic mental illness and addiction, and social skills process group for individuals with a chronic mental illness.
- Administration, scoring, and interpretation of test batteries given to children, adolescents, and adults. Responsible for writing psychological reports for all cases.

1996-1997 Student Therapist/Psychology Assistant

Behavioral Connections of Wood County
1010 Prospect Blvd.
Bowling Green, OH
(419) 352-5249

Primary Supervisor: Lawrence R. Klein, Ph.D.

- Co-facilitated ongoing sexual offender group for males. Provided individual psychotherapy for adult clients with presenting problems such as depression, personality disorders, dysthymia, adjustment disorders, and severe mental illness. Conducted diagnostic assessments. Suicide prevention presentation to local high school class. Received individual and group supervision.
- Provided after-hours crisis counseling for adult community members. Provided after-hours pre-screening for psychiatric hospital admissions. Acted as a liaison between the mental health center and hospital staff, law enforcement, and the community and made referrals for psychological services when necessary.
- Conducted routine mental status assessments on male and female, provided crisis intervention and hospital pre-screening for inmates, and provided short-term therapy for inmates requesting assistance.

Acted as liaison between Wood County Justice Center and Behavioral Connections of Wood County.
Consulted with Justice Center staff on behavior management of mentally ill inmates.

1995-1996 Student Therapist/Psychology Assistant

Student Health Services
Bowling Green State University
Bowling Green, OH 43403
Primary Supervisor: Stuart Keeley, Ph.D.

- Responsibilities included assessment and psychotherapy with adult individuals attending BGSU
- Individuals varied in age (18 - 45) and presented with a variety of problems, including depression, anxiety, school difficulties, family problems, eating concerns, relationship difficulties, and a variety of life concerns
- Psychotherapy was provided from a cognitive/behavioral orientation
- Participated in group supervision of cases and received individual supervision

1993-1997 Student Therapist/Psychology Assistant

Psychological Services Center
Department of Psychology
Bowling Green State University
Bowling Green, OH 43403
(219) 372-2540

Primary Supervisor: Varied according to training experience.

- The Psychological Services Center (PSC) is a training facility for clinical psychology graduate students and serves clients who are self-referred or referred by courts and local agencies. As a psychological assistant, I completed assessments with and provided psychotherapy to children, adolescents, and adults with a wide range of presenting problems.
- Outpatient Therapy: I conducted outpatient psychotherapy with individuals and families with a wide range of presenting problems. Received hour for hour individual supervision from a licensed clinical psychologist.
- Clinical Assessment Team: I conducted psychological assessments, including diagnostic interviews, with children, adolescents, adults, and families with a variety of presenting problems. Administered both objective and projective psychological tests and was responsible for writing full psychological report.
- Clinical Intervention Teams: *Family Systems Intervention Team* included observation and supervision of family therapy cases. Team also developed and wrote a training manual for family interventions and conceptualization.
Ohio Families Project Team designed and implemented a qualitative research project aimed at understanding the experiences of families and individuals experiencing a chronic mental illness. Team members conducted interviews with consumers and family members in their homes. Results were presented at a national conference.
I CAN DO Team involved facilitating a 13-week primary prevention program for fourth grade elementary students. Program sought to teach children problem solving and coping skills relevant to life circumstances they encounter such as divorce, death, moving, and acceptance of differences.

Related Clinical Experience:

1991-1993 Case Manager and Crisis Interventionist

Cornerstone Support Services
344 W. High Ave.
New Philadelphia, OH
(330) 339-7850

Primary Supervisors: Suresh Patel, M.D., and Catherine Richards, LISW

- Program coordinator for an intensive case management program serving adult individuals with a chronic mental illness. This program was designed to provide extended services to a limited number of consumers.

-
- Case manager for individuals with a chronic mental illness. Average caseload of 25 consumers. Provided hands-on assistance with activities of daily living, entitlement programs, housing, and medication.
 - Crisis intervention specialist responsible for crisis hotline and face-to-face intervention during crisis periods. Worked with various agencies and community resources including: local law enforcement and hospital staff. Facilitated crisis resolution and hospitalization if needed.

Research Experience:

2002 Doctoral Dissertation - Bowling Green State University

Research Chair: Catherine H. Stein, Ph.D.

- Empirical investigation examining the development and impact of job-related personal growth in case managers providing services to adult individuals experiencing a chronic mental illness. Data from mental health services consumers was obtained to understand how case managers' feelings of growth and meaning impact the case manager-consumer relationship.

1997 Preliminary Examination - Bowling Green State University

Research Chair: Catherine H. Stein, Ph.D.

- Conducted a comprehensive review of the literature on rural environments and rural mental health services. An emphasis on understanding the experiences of rural individuals with a serious mental illness and their families was presented. Integrated literature pertaining to family education and case management for individuals with a serious mental illness in an effort to articulate new directions for mental health services in rural America.

1996 Masters Thesis - Bowling Green State University

Research Chair: Catherine H. Stein, Ph.D.

- Developed a self-report survey of professional burnout, perceived effectiveness, organizational environment variables, and case manager/consumer relationship variables. Obtained data from mental health case managers from throughout the State of Ohio, including both rural and urban locations. Examined the relative contribution of demographic variables, organizational environment variables, and case manager/consumer relationship variables on case managers' reports of professional burnout and perceived effectiveness.

1997-1998 Wood County Families and Children First Council

Supervisor: Eric Dubow, Ph.D., Kenneth Pargament, Ph.D., Douglas Ullman, Ph.D.

- Assisted with conducting a countywide needs assessment exploring families' opinions related to mental health, physical health, public health, mental retardation/developmental delay, and educational services. Conducted structured interviews with a random sample of county residents. Interviews were in-person and obtained via door-to-door solicitation. Coordinated interviewer training for undergraduate students involved in collecting data. Also provided supervision to undergraduate students upon completion of community interviews. Participated in weekly team meetings to discuss methodological and data collection issues.

1994-1997 Ohio Families Project

Supervisor: Catherine H. Stein, Ph.D.

- Examined the psychological literature on serious mental illness with an emphasis on understanding the impact of the illness on family members. Assisted in the development of a semi-structured interview protocol for use with individuals with a chronic mental illness and their family members. Conducted interviews with consumers and family members in the community regarding their life experiences in coping with a chronic mental illness. Analyzed qualitative data related to family members' and consumers' perceptions of mental health system and presented at the Biennial Conference on Community Research and Action.
