XI: REVIEW OF SERVICES UNDER CONTRACT

Currently no services are provided under contract to this agency.

XII: FOCUSED REVIEW AREA

The focused area of review for October was to review the number of clients released from psychiatric inpatient care that do not receive necessary services within two weeks of requesting them and to conduct a fire drill.

A review of clients who had psychiatric hospital stays in the past twelve months was conducted.

There were 39 incidents involving 29 clients being psychiatrically hospitalized; this is an increase from 25 incidents for the same time frame last year. There were twenty-two adults (75% of the clients) including 11 females and 11 males and seven children (24% of the clients) including 3 females and 4 males hospitalized. Three of the hospitalizations were in a state facility; all others were in community hospitals. On average (mean) the client's hospitalization lasted 17 days. The median length of stay was 6 days.

Two of the clients hospitalized on three separate occasions were children who do not have a diagnosis that would qualify as severely mentally disabled, however the hospitalizations may have occurred due to the lack of availability of placement in another setting such as foster care.

There were a total of 29 clients hospitalized, 17 (59%) of the clients were diagnosed with an affective disorder and 15 (52%) were diagnosed with a thought disorder. Fourteen (48%) of the clients who were hospitalized had co-occurring substance abuse issues and mental health issues.

Clients had an average of five contacts with the agency and missed one scheduled appointment in the ten days before admission to the hospital. All clients received services within 14 days of discharge. Clients had an average of five contacts with the agency in the ten days following their release from the hospital. They missed an average of one scheduled appointment in the same time period.

A summary of data reflecting hospitalizations is attached. Also attached are graphs of the data.

A fire drill was conducted on October 28, 2004 at 11:50 a.m. The drill message was delivered using the intercom on the phone system. Both buildings were evacuated in 1 minute 31 seconds.

XIII: RESPONSE TO LAST MONTHS FOCUS REVIEW

The sex offender program review is still being conducted. The chart reviews have been completed and the information is being compiled. The report also continues to be compiled.

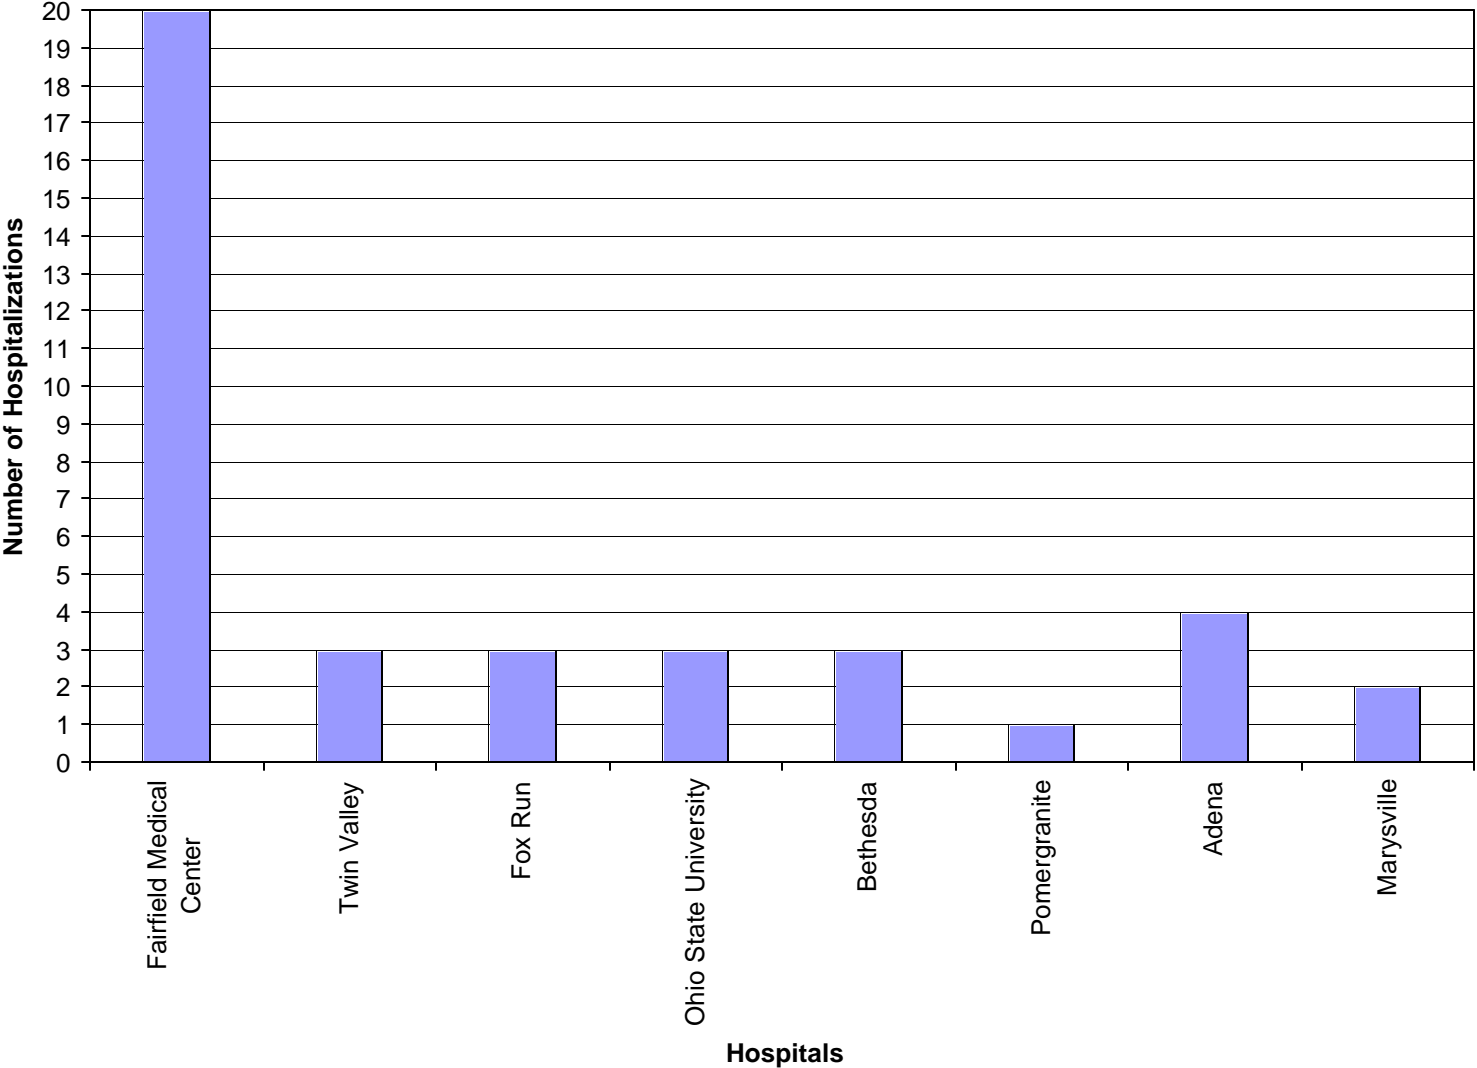

XIV: CLIENT RIGHTS AND GRIEVANCES

There were no client rights or grievance issues for October 2004.
