Quality Assurance Coordinator

SUBJECT: Quality Assurance Activities for October 2006
Chart Reviews for August 2006

SUBMITTED: March 7, 2007

I: MAJOR UNUSUAL INCIDENTS

There was one major unusual incident for the month of October. On 10/11/2006, the Lancaster Police Department was notified after client #05052302 contacted the agency regarding a domestic dispute between the client and a relative. The client's case manager could hear yelling in the background and the client appeared to be under the influence of prescribed medication. The client was seen by Ellen Marshall on 10/12/2006.

II: ABUSE AND NEGLECT AND DUTY TO WARN

The agency made four reports to Children Services during the month of October.

County of Report	Number of Reports
Fairfield County	3
Franklin County	1

III: TRANSFERS FROM STATE HOSPITALS

There were no discharges from a state hospital in October. There were two discharges from community hospitals in October. Client #05061001 was admitted on 10/28/2006 and discharged on 10/31/2006 from OSU-Harding Medical Center. The client was seen by AJ Bierly on 10/31/2006.

Client #04011505 was admitted on 10/05/2006 and discharged on 10/13/2006 from Bethesda Hospital. The client was seen by Mike Selegue on 10/20/2006.

IV: PLANT/PHYSICAL HEALTH AND SAFETY

There were no plant/physical health and safety items to report this month.

*Denotes that the clinician did not meet the target threshold of 95% compliance with the standards.

Twenty percent of the clinicians failed to meet the 95% threshold for the record review.

Errors found during reviews and the percentage of records reviewed are as follows:

- Thirty-two percent of the records reviewed were missing a copy of the current medical card.

- Twenty percent of the records reviewed were missing forms or had incomplete forms in the chart.
- Signatures were missing on some forms in the chart for 12% of the clinicians.
- In sixteen percent of the records reviewed there was at least one session recorded that did not match the billing record.
- Twenty-four percent of the records reviewed had an Individual Service Plan on the chart that needed to be updated.
- Four percent of the records reviewed did not have a reviewed health assessment.
- Thirty-six percent of the records were missing case notes for billed services.

The No Show rate for October was 17%. When considering both the no show rate and the cancellation rate, this figure is 27%.

VIII: AOD UTILIZATION REVIEW

There are currently no AOD groups active within the agency. AOD clients continue to be seen on an individual basis following the agency's revised AOD program.

IX: INVOLUNTARY TERMINATIONS

No involuntary terminations were conducted during the month of October 2006.

X: PROFESSIONAL STAFF ORGANIZATION

The clinical staff maintains current licensure; however no staff attended any training in October.

XI: REVIEW OF WAITING LIST

There were a total of 85 new clients seen in the month of October. Fifty-six percent of these new clients were from Fairfield County. The total number of clients seen in the month of October was 760.

The average time between phone intake and the first appointment time offered was 29.91 days. The average time between phone intake and completion of intakes for new clients was 43.22 days. The agency strives to see new clients within 30 days of initial contact.

XII: REVIEW OF SERVICES UNDER CONTRACT

Currently no services are provided under contract to this agency.

XIII: FOCUSED REVIEW AREA

The focused area of review for October was to review continuity of service regarding the number of persons who are discharged from a psychiatric inpatient hospital and do not receive necessary services within two weeks of requesting such services. Staff reported psychiatric hospitalization was reviewed for October 2005 – September 2006. There were six clients discharged from state hospitals during this time, all were seen within two weeks of discharge by agency staff. There were twenty-eight clients discharged from community psychiatric hospitalization during this time, all but two were seen within fourteen days of discharge. One client was not a client of the agency at the time of hospitalization and was referred to the agency after discharge for a diagnostic assessment. The client's telephone intake was completed on 10/10/2005 and the first appointment was scheduled for 11/03/2005, the first diagnostic assessment time available. The second client was relocated by the foster care agency after discharge from the hospital, so a follow-up session was not possible. Agency staff did provide information to another agency when a request was made, to aid in the client's follow-up care.

A fire drill was conducted on 10/19/2006, with three participants with an evacuation time of 1 minute and 2 seconds, with all agency procedures followed properly.

XIV: RESPONSE TO LAST MONTHS FOCUS REVIEW

There was no response to the prior months focused review.

XV: CLIENT RIGHTS AND GRIEVANCES

There were no client grievances filed for the month of October.

XVI: TREATMENT OUTCOMES REPORTING

The “Outcome Review” for this month focused on assessing adult mental health consumers relationships overall satisfaction with the quality of their life breaking it down males vs. females from the view of the consumers who sought services from this agency.

The questions the scale is addressing is comprised of an items located on the Ohio Mental Health Consumers Outcomes System Adult Consumer Form B. The questions are as follows:

How do you feel about:

- The amount of friendship in your life?
- The amount of money you get?
- How comfortable and will-off you are financially?
- How much money you have to spend for fun?
- The amount of meaningful activity in your life (such as work, school, volunteer activity, leisure activity)?
- The amount of freedom you have?
- They way you and your family act toward each other?
- Your personal safety?
- The neighborhood in which you live?
- Your housing/living arrangements?
- Your health in general?
- How often do you have the opportunity to spend time with people you really like?

Client self reports of their “feelings regarding their overall quality of life” was reviewed using the ODMH Data Mart for all years reported (2000-2006). The satisfaction scale ranges from 1-6 (1 terrible, 2 mostly dissatisfied, 3 equally satisfied and dissatisfied, 4 mostly satisfied, 5 very pleased).

Results remain fairly consistent over gender, however over twice as many females responded than males (832 vs. 340). The means of 2.81 for females and 3.03 for males both fell within the equally satisfied/dissatisfied range.

As with all data derived from the data mart, the results should be viewed with caution due to inconsistent sample sizes in each reporting period as well as the lack of external validation of the data scales.
